WSU TECH HYBRID TRAINING

What:

This workshop is designed to provide faculty with the skills needed to move a course/program to the hybrid environment. The workshop will **combine self - paced work in Blackboard with facilitated sessions** that provide opportunities for sharing strategies/successes with questions about how to apply lessons learned to the different program/disciplines at WSUTech. The workshop is divided into **two parts** and faculty will submit deliverables to the facilitator for review. Each part of the workshop will include a facilitated synchronous session (recording will also be available).

Who:

This workshop is required for **all full time faculty at WSU Tech.** Adjuncts are encourage to attend.

When:

There are cohorts of this workshop scheduled for **July, August, and October. Contact your program leadership for information on when you should attend.**

Where:

The instructional content of the workshop will be housed in **Blackboard** and the facilitated sessions will take place in Zoom.

How to enroll:

Your program leadership will submit your name to **ITAS@wsutech.edu** for course enrollment.

WSU TECH HYBRID TRAINING

PART 1

Module 1: Overview of Hybrid Teaching
