**Embedding Proquest videos in Blackboard-based classes**

1. Open Chrome.
2. Go to Library tab in *My WATC*.
3. Find the *Online Videos* section in the center of the page.
4. Open *Proquest Nursing Videos*.
5. Choose a video and click on the title- may need to wait a bit.
6. When it comes up, on the right side, under "Other Formats," right click on **.mp4** to save link as.

7. This will automatically move the file to Local Disk C:/Users/(name)/Downloads.
8. Make folder for all videos to simplify, and move file to the folder.
9. Rename so you can identify.
10. Click on Save.
11. Go to Blackboard and make sure it's on "edit."
12. Click on "Course Work."
13. Under the tab, "Build content," click on Blank Page
14. On "Content menu"---find the following icon— click on it:
15. "Insert/edit embedded media" It's on the third row down and four icons from the left.
16. For Type: "Windows Media"
17. Make dimensions at least 650x488.
18. Browse for video/ Be patient.
19. Open file to make sure it works.
20. Click on "Insert" Don't worry if it says "vulnerable."
21. Put the name of the video at the top, in the required field.

22. At top of page, click on "Submit"
23. If need be, click on "Activate."
24. Click on the video to see if it works.
