Don't Panic, Prioritize: Emergency Stabilization Made Simple(ish) **Kaitlyn Pinney, RVT**

1:50 PM

When emergencies walk through the door, veterinary technicians are often the first line of defense, and our primary goal is to help stabilize the patient. This lecture breaks down the basics of initial stabilization—including triage and essential interventions—so you can respond with confidence and clarity to be ready when every second counts.

2:00 PM
–

Canine Lymphoma: A Technician's Perspective **Brooke Neiberger, RVT**

2:50 PM

This session will provide an in-depth look at the diagnosis and treatment of canine lymphoma, with a focus on the technician's role in patient care. Topics include chemotherapy protocols, client communication, safety precautions, and supporting both pets and their people through the cancer journey.

3:00 PM
–

Patient Advocacy: Both Art & Science **Amelia Hartman, RVT**

3:50 PM

From shelters to zoo medicine, from preventatives to anesthesia, from the first visit to the last goodbye. Whether on the job or in a classroom, veterinary nurses consistently cultivate knowledge and sharpen their skill sets. This talk will reflect how this commitment to personal and professional growth directly impacts our patients' welfare, and how to find YOUR voice for the voiceless.

4:00 PM
–

State of the Industry **Amanda Hackerott, RVT**

4:50 PM

This session will be a community conversation regarding title protection, the role of professional associations, ways to get involved in changing legislation. Bring your ideas to the table and let's plan to elevate the profession in Kansas.
